COMMUNICATIONS AND SUBSCRIPTIONS

All **manuscripts** should be submitted to the MANAGING EDITOR, Lee N. Miller, Ecological Society of America, Cornell University, Corson Hall, Ithaca, NY 14853. For information on the current status of their manuscripts, authors may contact Candace Baker or Helen Sisson, Office Managers, at the same address, or telephone (607) 256-3221.

All **books** (and pamphlets) **for review** should be submitted to the BOOK REVIEW EDITOR (Marilyn S. Darling, Department of Botany, Duke University, Durham, NC 27706). The Society is not responsible for manuscripts, books for review, or other unsolicited materials which are sent to it addressed incorrectly and which require forwarding.

Subscription price for 1985: In the United States, $85.00 per year; in foreign countries add $10.00 postage. Single issues from the current year: $15.00 each. Single back issues: $16.00; complete back volumes, as available: $90.00. All back issues are plus postage. Special rates for back issues are available to active and sustaining members.

Remittances for memberships, subscriptions, or back issues should be made payable to the Ecological Society of America.

Missing issues will be supplied free when lost in the mails if written notice is received by the Business Manager (address below) within three months of the date of publication.

Correspondence regarding membership or subscriptions, including payment of membership dues, new non-member and institutional subscriptions, change of address, back issues, missing issues, and discontinuances should be addressed to the **Business Manager,** Ecological Society of America, Center for Environmental Studies, Arizona State University, Tempe, AZ 85287.

Requests for permission to use copyrighted material should be directed to the **Permissions Editor,** the Ecological Society of America, Center for Environmental Studies, Arizona State University, Tempe, AZ 85287.

STATEMENT OF OWNERSHIP AND MANAGEMENT

ECOLOGY (ISSN 0012-9658) is published six times per year in February, April, June, August, October and December by the Ecological Society of America (rates listed above). The Office of Publication and the General Business Office are located at the Center for Environmental Studies, Arizona State University, Tempe, AZ 85287. The Managing Editor is Dr. Lee N. Miller, Cornell University, Corson Hall, Ithaca, NY 14853. The Business Manager is Dr. Duncan T. Patten, Ecological Society of America, Center for Environmental Studies, Arizona State University, Tempe, AZ 85287. The Owner and Publisher is The Ecological Society of America, Center for Environmental Studies, Arizona State University, Tempe, AZ 85287. The Ecological Society of America is a nonprofit organization founded in 1915 and incorporated under the laws of Wisconsin in 1927. There are no bondholders, mortgagees, or other security holders. POSTMASTER: For undeliverable copies, return postage is guaranteed to the Ecological Society of America, Center for Environmental Studies, Arizona State University, Tempe, AZ 85287. Second-class postage paid at Tempe, AZ and additional mailing offices.

EXTENT AND NATURE OF CIRCULATION. *Average number of copies of each issue published during the preceding twelve months:* (A) total number of copies printed, 9500; (B.1) sales through dealers and carriers, street vendors and counter sales, 0; (B.2) paid mail subscriptions, 8611; (C) total paid circulation, 8611; (D) samples, complimentary, and other free copies, 25; (E) total distribution, 8636; (F.1) office use, left over, unaccounted, spoiled after printing, 864; (F.2) returns from news agents, 0; (G) total, 9500. *Actual number of copies of single issue published nearest to filing date:* (A) total number of copies printed, 9500; (B.1) sales through dealers and carriers, street vendors and counter sales, 0; (B.2) paid mail subscriptions, 8508; (C) total paid circulation, 8508; (D) samples, complimentary, and other free copies, 20; (E) total distribution, 8528; (F.1) office use, left over, spoiled after printing, 972; (F.2) returns from news agents, 0; (G) total, 9500.

TABLE OF CONTENTS, Volume 65, 1984

Number 1, February

Bender, E. A., T. J. Case, and M. E. Gilpin. Perturbation experiments in community ecology: theory and practice 1–13

Salzburg, M. A. *Anolis sagrei* and *Anolis cristatellus* in southern Florida: a case study in interspecific competition 14–19

Hopper, K. R. The effects of host-finding and colonization rates on abundances of parasitoids of a gall midge 20–27

Jara, H. F., and C. A. Moreno. Herbivory and structure in a midlittoral rocky community: a case in southern Chile 28–38

Vodopich, D. S., and B. C. Cowell. Interaction of factors governing the distribution of a predatory aquatic insect 39–52

Morin, P. J. The impact of fish exclusion on the abundance and species composition of larval odonates: results of short-term experiments in a North Carolina farm pond 53–60

Howard, D. J., and R. G. Harrison. Habitat segregation in ground crickets: experimental studies of adult survival, reproductive success, and oviposition preference 61–68

Howard, D. J., and R. G. Harrison. Habitat segregation in ground crickets: the role of interspecific competition and habitat selection 69–76

Rothstein, S. I., J. Verner, and E. Stevens. Radio-tracking confirms a unique diurnal pattern of spatial occurrence in the parasitic Brown-headed Cowbird 77–88

Horsfall, J. A. Food supply and egg mass variation in the European Coot .. 89–95

Vickery, W. L., and T. D. Nudds. Detection of density-dependent effects in annual duck censuses 96–104

Burnham, K. P., and D. R. Anderson. Tests of compensatory vs. additive hypothesis of mortality in Mallards 105–112

Stephenson, A. G. The regulation of maternal investment in an indeterminate flowering plant (*Lotus corniculatus*) 113–121

Ford, R. G., and F. A. Pitelka. Resource limitation in populations of the California vole 122–136

McIntire, P. W. Fungus consumption by the Siskiyou chipmunk within a variously treated forest 137–146

Root, R. B., and P. M. Kareiva. The search for resources by cabbage butterflies (*Pieris rapae*): ecological consequences and adaptive significance of Markovian movements in a patchy environment 147–165

Lima, S. L. Downy Woodpecker foraging behavior: efficient sampling in simple stochastic environments 166–174

Bach, C. E. Plant pattern and herbivore population dynamics: plant factors affecting the movement patterns of a tropical cucurbit specialist (*Acalymma innubum*) 175–190

Hendrix, S. D. Reactions of *Heracleum lanatum* to floral herbivory by *Depressaria pastinacella* 191–197

Hartgerink, A. P., and F. A. Bazzaz. Seedling-scale environmental heterogeneity influences individual fitness and population structure 198–206

Zangerl, A. R., and F. A. Bazzaz. Effects of short-term selection along environmental gradients on variation in populations of *Amaranthus retroflexus* and *Abutilon theophrasti* 207–217

Zangerl, A. R., and F. A. Bazzaz. Niche partitioning between two phosphoglucoisomerase genotypes in *Amaranthus retroflexus* 218–222

Russell-Hunter, W. D., R. A. Browne, and D. W. Aldridge. Overwinter tissue degrowth in natural populations of freshwater pulmonate snails (*Halisoma trivolvis* and *Lymnaea palustris*) 223–229

Davis, M. A. The flight and migration ecology of the red milkweed beetle (*Tetraopes tetraophthalmus*) 230–234

KARASOV, W. H., AND R. A. ANDERSON. Interhabitat differences in energy acquisition and expenditure in a lizard 235–247
TAIGEN, T. L., F. H. POUGH, AND M. M. STEWART. Water balance of terrestrial anuran (*Eleutherodactylus coqui*) eggs: importance of parental care 248–255
PASTOR, J., J. D. ABER, C. A. MCCLAUGHERTY, AND J. M. MELILLO. Aboveground production and N and P cycling along a nitrogen mineralization gradient on Blackhawk Island, Wisconsin 256–268
LINDEBOOM, H. J. The nitrogen pathway in a penguin rookery 269–277
SANTOS, P. F., N. Z. ELKINS, Y. STEINBERGER, AND W. G. WHITFORD. A comparison of surface and buried *Larrea tridentata* leaf litter decomposition in North American hot deserts 278–284
VITOUSEK, P. M. Litterfall, nutrient cycling, and nutrient limitation in tropical forests 285–298
MOORE, T. R. Litter decomposition in a subarctic spruce-lichen woodland, eastern Canada 299–308
MEYERS, D. G. Egg development of a chydorid cladoceran, *Chydorus sphaericus* exposed to constant and alternating temperatures: significance to secondary productivity in fresh waters 309–320
YODZIS, P. How rare is omnivory? 321–323
SMITH, E. P. A note on the general likelihood measure of overlap 323–324
SELL, D. W., H. J. CARNEY, AND G. L. FAHNENSTIEL. Inferring competition between natural phytoplankton populations: the Lake Michigan example reexamined 325–328
TILMAN, G. D., S. S. KILHAM, AND P. KILHAM. A reply to Sell, Carney, and Fahnenstiel 328–332

NUMBER 2, APRIL

PASTOR, J., AND J. G. BOCKHEIM. Distribution and cycling of nutrients in an aspen–mixed-hardwood–spodosol ecosystem in northern Wisconsin 339–353
STINNER, B. R., D. A. CROSSLEY, JR., E. P. ODUM, AND R. L. TODD. Nutrient budgets and internal cycling of N, P, K, Ca, and Mg in conventional tillage, no-tillage, and old-field ecosystems on the Georgia piedmont 354–369
BERTNESS, M. D. Habitat and community modification by an introduced herbivorous snail 370–381
LINZEY, A. V. Patterns of coexistence in *Synaptomys cooperi* and *Microtus pennsylvanicus* 382–393
BORMANN, B. T., AND J. C. GORDON. Stand density effects in young red alder plantations: productivity, photosynthate partitioning, and nitrogen fixation 394–402
WHITNEY, G. G. Fifty years of change in the arboreal vegetation of Heart's Content, an old-growth hemlock–white pine–northern hardwood stand ... 403–408
SALE, P. F., AND W. A. DOUGLAS. Temporal variability in the community structure of fish on coral patch reefs and the relation of community structure to reef structure 409–422
KEOUGH, M. J. Effects of patch size on the abundance of sessile marine invertebrates 423–437
GANTER, P. F. The effects of crowding on terrestrial isopods 438–445
HAY, M. E. Patterns of fish and urchin grazing on Caribbean coral reefs: are previous results typical? 446–454
GILINSKY, E. The role of fish predation and spatial heterogeneity in determining benthic community structure 455–468
CARLETON, T. J. Residual ordination analysis: a method for exploring vegetation-environment relationships 469–477
REINERT, H. K. Habitat separation between sympatric snake populations ... 478–486
MENGES, E. S., AND O. L. LOUCKS. Modeling a disease-caused patch disturbance: oak wilt in the midwestern United States 487–498
MITTELBACH, G. G. Predation and resource partitioning in two sunfishes (Centrarchidae) 499–513

RIESSEN, H. P., W. J. O'BRIEN, AND B. LOVELESS. An analysis of the components of *Chaoborus* predation on zooplankton and the calculation of relative prey vulnerabilities 514–522
POWER, M. E. Depth distributions of armored catfish: predator-induced resource avoidance 523–528
QUAMMEN, M. L. Predation by shorebirds, fish, and crabs on invertebrates in intertidal mudflats: an experimental test 529–537
LEMKE, T. O. Foraging ecology of the long-nosed bat, *Glossophaga soricina*, with respect to resource availability 538–548
TAGHON, G. L., AND P. A. JUMARS. Variable ingestion rate and its role in optimal foraging behavior of marine deposit feeders 549–558
GARRITY, S. D. Some adaptations of gastropods to physical stress on a tropical rocky shore 559–574
MERKER, G. P., AND K. A. NAGY. Energy utilization by free-ranging *Sceloporus virgatus* lizards 575–581
VOGT, R. C., AND J. J. BULL. Ecology of hatchling sex ratio in map turtles .. 582–587
NAGY, K. A., R. B. HUEY, AND A. F. BENNETT. Field energetics and foraging mode of Kalahari lacertid lizards 588–596
RICHTER, W. Nestling survival and growth in the Yellow-headed Blackbird, *Xanthocephalus xanthocephalus* 597–608
HERRERA, C. M. Adaptation to frugivory of mediterranean avian seed dispersers 609–617
INOUYE, D. W., AND G. D. WALLER. Responses of honey bees *Apis mellifera* to amino acid solutions mimicking floral nectars 618–625
THOMPSON, J. N. Variation among individual seed masses in *Lomatium grayi* (Umbelliferae) under controlled conditions: magnitude and partitioning of the variance 626–631
BENKMAN, C. W., R. P. BALDA, AND C. C. SMITH. Adaptations for seed dispersal and the compromises due to seed predation in limber pine 632–642
SMITH, S. D., B. DIDDEN-ZOPFY, AND P. S. NOBEL. High-temperature responses of North American cacti 643–651
ENGEN, S. A comment on stochastic approaches to optimal foraging theory .. 652–654
WASHBURN, J. C. Mutualism between a cynipid gall wasp and ants 654–656
WRIGHT, H. E., JR., D. H. MANN, AND P. H. GLASER. Piston corers for peat and lake sediments 657–659
STILING, P. D., B. V. BRODBECK, AND D. R. STRONG. Intraspecific competition in *Hydrella valida* (Diptera: Ephydridae), a leaf miner of *Spartina alterniflora* 660–662
CROY, C. D., AND R. L. DIX. Notes on sample size requirements in morphological plant ecology 662–666

NUMBER 3, JUNE

KEOUGH, M. J. Dynamics of the epifauna of the bivalve *Pinna bicolor*: interactions among recruitment, predation, and competition 677–688
KOTLER, B. P. Risk of predation and the structure of desert rodent communities 689–701
STEIN, R. A., C. G. GOODMAN, AND E. A. MARSCHALL. Using time and energetic measures of cost in estimating prey value for fish predators 702–715
HARVELL, D. Why nudibranchs are partial predators: intracolonial variation in bryozoan palatability 716–724
WEBB, D. R. Age-specific energetics of Yellow-bellied Marmots 725–731
RICE, J. A., AND P. A. COCHRAN. Independent evaluation of a bioenergetics model for largemouth bass 732–739
GETTINGER, R. D. Energy and water metabolism of free-ranging pocket gophers, *Thomomys bottae* 740–751
CHRISTIAN, K. A., C. RICHARD TRACY, AND W. P. PORTER. Physiological and ecological consequences of sleeping-site selection by the Galapagos land iguana (*Conolophus pallidus*) 752–758
REYNOLDS, D. N. Alpine annual plants: phenology, germination, photosynthesis, and growth of three Rocky Mountain species 759–766

NILSEN, E. T., M. RASOUL SHARIFI, AND P. W. RUNDEL. Comparative water relations of phreatophytes in the Sonoran Desert of California 767–778
BURTON, P. J., AND D. MUELLER-DOMBOIS. Response of *Metrosideros polymorpha* seedlings to experimental canopy opening 779–791
FLINT, S. D., AND M. M. CALDWELL. Partial inhibition of in vitro pollen germination by simulated solar ultraviolet-B radiation 792–795
HARMON, M. E. Survival of trees after low-intensity surface fires in Great Smoky Mountains National Park 796–802
CANHAM, C. D., AND O. L. LOUCKS. Catastrophic windthrow in the presettlement forests of Wisconsin 803–809
AGEE, J. K., AND L. SMITH. Subalpine tree reestablishment after fire in the Olympic Mountains, Washington 810–819
BENEDICT, J. B. Rates of tree-island migration, Colorado Rocky Mountains, USA 820–823
PARKER, M. A. Local food depletion and the foraging behavior of a specialist grasshopper, *Hesperotettix viridis* 824–835
LEWIS, A. C. Plant quality and grasshopper feeding: effects of sunflower condition on preference and performance in *Melanoplus differentialis* 836–842
LEVEY, D. J., T. C. MOERMOND, AND J. S. DENSLOW. Fruit choice in neotropical birds: the effect of distance between fruits on preference patterns 844–850

KALISZ, P. J., AND E. L. STONE. The longleaf pine islands of the Ocala National Forest, Florida: a soil study 1743–1754
KOVACIC, D. A., T. V. ST. JOHN, AND M. I. DYER. Lack of vesicular-arbuscular mycorrhizal inoculum in a ponderosa pine forest 1755–1759
SINGH, J. S., W. K. LAUENROTH, H. W. HUNT, AND D. M. SWIFT. Bias and random errors in estimators of net root production: a simulation approach 1760–1764
TITUS, J. E., AND D. J. WAGNER. Carbon balance for two *Sphagnum* mosses: water balance resolves a physiological paradox 1765–1774
SOUTHWICK, E. E. Photosynthate allocation to floral nectar: a neglected energy investment 1775–1779
DAVIDSON, D. W., R. S. INOUYE, AND J. H. BROWN. Granivory in a desert ecosystem: experimental evidence for indirect facilitation of ants by rodents 1780–1786
KOPTUR, S. Experimental evidence for defense of *Inga* (Mimosoideae) saplings by ants 1787–1793
BERTNESS, M. D. Ribbed mussels and *Spartina alterniflora* production in a New England salt marsh 1794–1807
PATON, D. C., AND F. L. CARPENTER. Peripheral foraging by territorial Rufous Hummingbirds: defense by exploitation 1808–1819
SCHNEIDER, K. J. Dominance, predation, and optimal foraging in White-throated Sparrow flocks 1820–1827
TELFER, E. S., AND J. P. KELSALL. Adaptation of some large North American mammals for survival in snow 1828–1834
KINGSOLVER, J. G., AND W. B. WATT. Mechanistic constraints and optimality models: thermoregulatory strategies in *Colias* butterflies 1835–1839
SLATKIN, M., AND D. J. ANDERSON. A model of competition for space 1840–1845
KLEEBERGER, S. R. A test of competition in two sympatric populations of desmognathine salamanders 1846–1856
PETRANKA, J. W. Sources of interpopulational variation in growth responses of larval salamanders 1857–1865
MORIN, P. J. Odonate guild composition: experiments with colonization history and fish predation 1866–1873
KIRKPATRICK, M. Demographic models based on size, not age, for organisms with indeterminate growth 1874–1884
BUTLER, S. M., AND J. R. BENCE. A diet model for planktivores that follow density-independent rules for prey selection 1885–1894
JONES, R. C. Application of a primary production model to epiphytic algae in a shallow, eutrophic lake 1895–1903

CUBIT, J. D. Herbivory and the seasonal abundance of algae on a high intertidal rocky shore 1904–1917
SOUSA, W. P. Intertidal mosaics: patch size, propagule availability, and spatially variable patterns of succession 1918–1935
KIMMERER, W. J. Diversity/stability: a criticism 1936–1938

REVIEWS 333–338, 667–675, 1023–1030, 1334–1338, 1698–1704, 1939–1947
